Shade cover for sandpit 3x3 m (adjustable) ZP331

ZP-331 Product type

Basic information

Age category from 0 years 6 m x 6 m Minimum area

4,01 m x 4,01 m x 2,4 m Equipment measurements

Free fall height:

Not specified Load capacity:

Max. number of users: Not specified Fall zone: EN 1177 null Designation: exterior Availability of spare parts: supplied by the Certificate of Compliance: **ČSN EN 1176**

Material

Metal parts - structural steel

Tarpaulin - raschel

6m E 4.01m

Finish

Hot-dip galvanizing

Description

The supporting structure of the sandbox shading is made of structural steel, which is protected against corrosion by hot-dip galvanizing, which results in a very significant extension of the life of the gaming element. This construction is embedded in a concrete bed. The sandbox shade is made of so-called raschel (high-quality, strong and durable shielding fabric). The sandbox shading is water permeable. All fasteners are galvanized or stainless steel.
