# Information board with rules of operation and workout plan

Product type IW-100K-10

### **Basic information**

Age category Not specified Minimum area 4,3 m x 3,1 m

Equipment measurements 1,28 m x 0,08 m x 1,86 m

Free fall height: 0 m

Load capacity: Not specified

Max. number of users:
Fall zone: EN 1177
Designation:
Availability of spare parts:
Certificate of Compliance:

Not specified
null
exterior
supplied by the
ČSN EN 1176 - 1

#### **Material**

Metal units - structural steel Information board - aluminium

# Finish

Hot-dip galvanizing

## **Description**

The information board structure is made of structural steel (metal profile  $60 \times 60 \times 3$  mm) which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. This structure is embedded in a concrete base. The board is made of aluminium. All connecting material is zinc or stainless steel coated.
