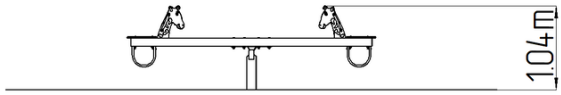
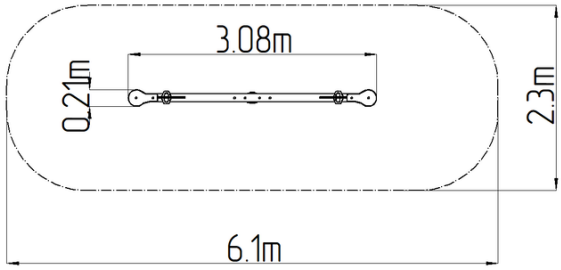
Double seat seesaw VH205KG - green

Product type VH-205KG-10

Basic information

Age category	2 - 10 years
Minimum area	6,1 m x 2,3 m
Equipment measurements	3,08 m x 0,21 m x 1,04 m
Free fall height:	1 m
Load capacity:	108 kg
Max. number of users:	2
Fall zone: EN 1177	null
Designation:	exterior
Availability of spare parts:	supplied by the
Certificate of Compliance:	ČSN EN 1176 - 1, 6





Material

Metal units - structural steel
Seats - HPL
Plastic units - HDPE

Finish

null
null

Description

The seesaw beam is made from structural steel, which is zinc coated and KOMAXIT powder coated according to the RAL colour chart and is anchored to the support structure by carriage bolts. The support structure of the see-saw is steel; it is protected against corrosion by hot-dip galvanizing and fixed in a concrete bed.
Plastic units are made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments).
The seats are made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance).
All fastening material is galvanized or stainless steel. The swing is constructed with durability and long life in mind. Impacts are dampened by rubber bumpers.
