# Double seat seesaw VH201KW - brown

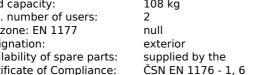

VH-201KW-10 Product type

### **Basic information**

Age category 2 - 10 years Minimum area 6,1 m x 2,3 m

3,08 m x 0,29 m x 0,93 m Equipment measurements

Free fall height: 1 m 108 kg Load capacity: Max. number of users: 2 Fall zone: EN 1177 null Designation: exterior Availability of spare parts: Certificate of Compliance:

#### **Material**

Metal units - structural steel

Seats - HPL

3.08m

# **Finish**

Duplex powder coated with coat curing Hot-dip galvanizing

## **Description**

The seesaw beam is made from structural steel, which is zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion and is anchored to the support structure by carriage bolts. The support structure of the see-saw is steel; it is protected against corrosion by hot-dip galvanizing and fixed in a concrete bed.

The seats are made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance).

The handles are zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion. All fastening material is galvanized or stainless steel. The swing is constructed with durability and long life in mind. Impacts are dampened by rubber bumpers.
