

Playhouse DO203KS - silver

Product type DO-203KS-10

Basic information

Age category	0 - 10 years
Minimum area	5 m x 4,2 m
Equipment measurements	2 m x 1,16 m x 1,52 m
Free fall height:	0 m
Max. number of users:	6
Fall zone: EN 1177	null
Certificate of Compliance:	ČSN EN 1176-1 ed.2 +A1:2024

Material

Metal units - structural steel
The drawing - water-proof plywood
Plastic units - HDPE
Roof - HPL

Finish

Duplex powder coated with coat curing
Hot-dip galvanizing

Description

The support structure of the playhouse is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are anchored to concrete footings. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The benches, side walls and table are made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). The roof is made from HPL (High-pressure laminate, which is characterised by high colour stability, UV resistance and water resistance). The drawing area and floor are made from water-proof plywood, which is designed for external use. All fastening material is galvanized or stainless steel.

Equipment

Roof, 3x side wall, 2x bench, table, abacus, drawing board, floor.
