UNIVERSAL 6U151KW - brown

Product type 6U-151KW-10

Basic information

Age category 2 - 15 years 5,1 m x 7,2 m Minimum area

Equipment measurements 2,01 m x 3,7 m x 2,12 m

Free fall height: 1 m 432 kg Load capacity: Max. number of users: 8 Fall zone: EN 1177 null Designation: exterior Availability of spare parts: supplied by the Certificate of Compliance: ČSN EN 1176 - 1, 2, 3

Material

Platform - HPL

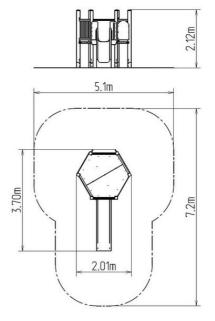

Metal units - structural steel

Plastic units - HDPE Slide - fibreglass

Finish

Hot-dip galvanizing

Duplex powder coated with coat curing

Description

The support structure of the tower unit is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life, or duplex powder coated with coat curing according to RAL to prevent corrosion. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The slide is made from fibreglass. The surfaces of the slides, steps, etc. are made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). The platform is made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance). All fastening material is galvanized or stainless steel.

Equipment

Tower, slide, ladder, 4x barrier from HDPE.
