

Sandpit with a movable cover 2x2 m PK220KS - silver

Product type PK-220KS-10

Basic information

Age category	from 0 years
Minimum area	5 m x 5 m
Equipment measurements	4,4 m x 2,1 m x 0,48 m
Free fall height:	0,48 m
Load capacity:	Not specified
Max. number of users:	Not specified
Fall zone: EN 1177	null
Designation:	exterior
Availability of spare parts:	supplied by the
Certificate of Compliance:	ČSN EN 1176 - 1

Material

Metal parts - structural steel
Sliding cover - waterproof plywood

Finish

Duplex powder coated with coat curing
Hot-dip galvanizing

Description

The sandbox is made of structural steel, which is protected against corrosion by zinc coating, which results in a very significant prolongation of the play element's lifetime or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are embedded in a concrete bed. All other metal elements of the metal elements are also treated with zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The sliding cover of the sandbox is made of waterproof plywood designed for outdoor use. All fasteners are galvanized or stainless steel.
