Sandpit with a movable cover 2x2 m PK220KS - silver

Product type PK-220KS-10

Basic information

Age category from 0 years Minimum area 5 m x 5 m

Equipment measurements 4,4 m x 2,1 m x 0,48 m

Free fall height:

Load capacity:

Max. number of users:

Fall zone: EN 1177

Designation:

Availability of spare parts:

Certificate of Compliance:

0,48 m

Not specified

null

exterior

supplied by the

ČSN EN 1176 - 1

Material

Metal parts - structural steel Sliding cover - waterproof plywood

5.10m 4.40m

Finish

Duplex powder coated with coat curing Hot-dip galvanizing

Description

The sandbox is made of structural steel, which is protected against corrosion by zinc coating, which results in a very significant prolongation of the play element's lifetime or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are embedded in a concrete bed. All other metal elements of the metal elements are also treated with zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The sliding cover of the sandbox is made of waterproof plywood designed for outdoor use. All fasteners are galvanized or stainless steel.
