

## Fitness element FP-004SL Shoulder workout machine -

Product type FP-004ST-10

### Basic information

|                              |                        |
|------------------------------|------------------------|
| Age category                 | from 15 years          |
| Minimum area                 | 4,18 m x 3,8 m         |
| Equipment measurements       | 1,2 m x 0,8 m x 1,94 m |
| Free fall height:            | 1.0 m                  |
| Load capacity:               | 120 kg                 |
| Max. number of users:        | 1                      |
| Fall zone: EN 1177           | null                   |
| Designation:                 | exterior               |
| Availability of spare parts: | supplied by the        |
| Certificate of Compliance:   | ČSN EN 16630:2016      |

### Material

Supporting column, handles - made of steel tubes  
Seat and backrest - HDPE

### Finish

null  
null

### Description

Seat and backrest are made of aluminum and covered with HDPE polyethylene (high-pressure, full-colored polyethylene, which is characterized by high color stability, UV resistance). The handles are made of powder-coated steel tubes. The supporting column is made of a steel tube with a mounting flange at the bottom. The seat frame and tread are made of powder coated sheet metal. Rolling bearings are used for movable connections. Holes are sealed with steel elements at the ends. All fasteners are stainless.

Functions: It improves the strength of the upper part of the body. It works out the back and shoulder muscles and biceps, while increasing flexibility and improving the cardiovascular functions.

Instructions: Sit down on the seat and grasp the handles firmly above yourselves. Drag the handles towards your chest. Return to the original position.
