

Skill path SD112KR - red

Product type

Basic information

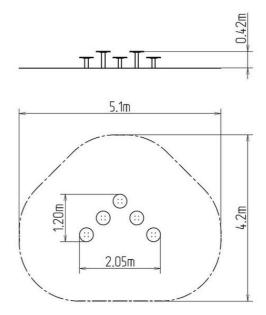

Age category Minimum area Equipment measurements Free fall height: Load capacity: Max. number of users: Fall zone: EN 1177 Designation: Availability of spare parts:	2 - 10 years 5,1 m x 4,2 m 2,05 m x 1,2 m x 0,42 0,6 m Not specified Not specified null exterior supplied by the
Certificate of Compliance:	čSN EN 1176 - 1, 11

2 m

SD-112KR-10

Material

Metal units - structural steel Plastic units - HDPE

Finish

Duplex powder coated with coat curing Hot-dip galvanizing

Description

The support structure of the skill path is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are embedded in a concrete base. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

All step boards are made of high quality HDPE (high-pressure, full-coloured polyethylene, which is characterised by high colour stability, UV resistance and mainly safety because it is rigid and there is no risk of injury caused by sharp broken fragments). All connecting material is zinc or stainless steel coated.

Equipment

We offer three color variants of the support structure - red, blue and brown.

We reserve the right to change products without prior notice, which will, from our point of view, improve quality. The pictures are only informative and the products shown may differ from the products that we currently supply.
