6,04 m x 4,34 m x 2,51 m

Free fall height: 1,5 m
Load capacity: 780 kg
Max. number of users: 10
Fall zone: EN 1177 null
Designation: exterior
Availability of spare parts: supplied by the

#### Material

Metal units - structural steel Plastic units - HDPE

Certificate of Compliance:

## Finish

Duplex powder coated with coat curing Hot-dip galvanizing

## Description

9,04m

The support structure of the workout set is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. All other metallic elements, such as handles, parallel bars etc., are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion or, if required by the customer, the elements can be made in stainless steel. All bench boards and steps are made of high quality HDPE (high-pressure, full-coloured polyethylene, which is characterised by high colour stability, UV resistance and mainly safety because it is rigid and there is no risk of injury caused by sharp broken fragments). All connecting material is zinc or stainless steel coated.

## **Equipment**

Color variants: blue-black, red-black, yellow-black, green-black, grey-black, orange-black.
