## Interactive panel IP107KS - silver

Product type

IP-107KS-10

#### **Basic information**

Age category	from 0 years
Minimum area	3,8 m x 3,1 m
Equipment measurements	0,8 m x 0,08 m x 1,41 m
Free fall height:	0 m
Load capacity:	Not specified
Max. number of users:	Not specified
Fall zone: EN 1177	null
Designation:	exterior
Availability of spare parts:	supplied by the
Availability of spare parts: Certificate of Compliance:	

### Finish

Material

Duplex powder coated with coat curing Hot-dip galvanizing

Metal parts - structural steel Plastic parts - HDPE

#### Description

The support structure of the panel is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are anchored to concrete footings. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The wall is made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). All fastening material is galvanized or stainless steel.
