

Interactive panel IP108KS - silver

Product type IP-108KS-10

Basic information

| | |
|------------------------------|-------------------------|
| Age category | from 0 years |
| Minimum area | 3,8 m x 3,1 m |
| Equipment measurements | 0,8 m x 0,08 m x 1,41 m |
| Free fall height: | 0 m |
| Load capacity: | Not specified |
| Max. number of users: | Not specified |
| Fall zone: EN 1177 | null |
| Designation: | exterior |
| Availability of spare parts: | supplied by the |
| Certificate of Compliance: | ČSN EN 1176 |

Material

Metal parts - structural steel
Plastic parts - HDPE

Finish

Duplex powder coated with coat curing
Hot-dip galvanizing

Description

The support structure of the panel is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are anchored to concrete footings. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The wall is made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). All fastening material is galvanized or stainless steel.
