

Climbing set SS8605KS - silver

Product type SS-8605KS-10

Basic information

| | |
|------------------------------|-------------------------|
| Age category | 2 - 10 years |
| Minimum area | 6,95 m x 4,3 m |
| Equipment measurements | 3,95 m x 1,3 m x 0,96 m |
| Free fall height: | 1 m |
| Load capacity: | 324 kg |
| Max. number of users: | 6 |
| Fall zone: EN 1177 | null |
| Designation: | exterior |
| Availability of spare parts: | supplied by the |
| Certificate of Compliance: | ČSN EN 1176 - 1 |

Material

Metal units - structural steel
 Ropes and nets - polypropylene with a steel internal core
 Plastic units - polyamide
 Climbing wall - HPL
 Climbing holds - mix of silica sand and epoxy resin

Finish

Duplex powder coated with coat curing
 Hot-dip galvanizing

Description

The support structure of the climbing set is made from structural steel, it is zinc coated which significantly prolongs the life of the play unit or duplex powder coated with coat curing according to RAL to prevent corrosion and it is fixed in a concrete bed. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion..

The climbing net, net and rope ladder are made using HERKULES material (16 mm thick ropes made from polypropylene with a steel internal core) and they are connected with plastic joints. The climbing wall is made from HPL (High-pressure laminate, which is characterised by high colour stability, UV resistance and water resistance). The climbing holds are made from the mix of silica sand and epoxy resin, which ensures long life, colour preservation as well as skin friendly surface. All fastening material is galvanized or stainless steel.

Equipment

Climbing net, pole climbing, 2x rope ladder, climbing wall, net.
