

Climbing set SS505KS - silver

Product type SS-505KS-10

Basic information

Age category	2 - 10 years
Minimum area	7,4 m x 4 m
Equipment measurements	4,38 m x 0,99 m x 0,96 m
Free fall height:	1 m
Load capacity:	270 kg
Max. number of users:	5
Fall zone: EN 1177	null
Designation:	exterior
Availability of spare parts:	supplied by the
Certificate of Compliance:	ČSN EN 1176 - 1

Material

Metal units - structural steel
 Ropes and nets - polypropylene with a steel internal core
 Plastic units - polyamide
 Ball toss - HDPE

Finish

null
 null

Description

The support structure of the climbing set is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements, and coating with baked paint KOMAXIT according to the RAL colour system. All other metallic elements are also zinc coated and treated with baked paint KOMAXIT according to the RAL colour system.

The climbing net and the rope ladder are made using HERKULES material (16 mm thick ropes made from polypropylene with a steel internal core) and they are connected with plastic joints. The Ball toss is made of high-quality HDPE (high-pressure, full-color polyethylene, which is characterized by high color stability, resistance to scratching, UV resistance and especially safety because it is brittle and there is no risk of injury to children by sharp debris). All fasteners are galvanized or stainless steel.

Equipment

Swedish ladder, climbing net, Ball toss, Fitness rack, Rope ladder.
