null

Description

The support structure of the climbing set is made from structural steel, it is zinc coated which significantly prolongs the life of the play unit and KOMAXIT powder coated according to the RAL colour chart and it is fixed in a concrete bed. All other metal units are zinc coated and KOMAXIT powder coated according to the RAL. The climbing net is made using HERKULES material (16 mm thick ropes made from polypropylene with a steel internal core) and it is connected with plastic joints. All fastening material is galvanized or stainless steel.

Equipment

Fitness rack, Swedish ladder, climbing net.
