# Climbing set SS314KW-B - brown

Product type

SS-314KW-10-B

## **Basic information**

| Age category                 | 1 - 10 years                       |
|------------------------------|------------------------------------|
| Minimum area                 | 4,42 m x 4,48 m                    |
| Equipment measurements       | 1,42 m x 1,48 m x 0,96 m           |
| Free fall height:            | 1 m                                |
| Load capacity:               | 162 kg                             |
| Max. number of users:        | 3                                  |
| Fall zone: EN 1177           | null                               |
| Designation:                 | exterior                           |
| Availability of spare parts: | supplied by the                    |
| 5                            | supplied by the<br>ČSN EN 1176 - 1 |

#### Material

Metal units - structural steel Ropes and nets - polypropylene with a steel internal core Plastic units - polyamide Ball toss - HDPE

### Finish

Duplex powder coated with coat curing Hot-dip galvanizing

#### Description

The support structure of the climbing set is made from structural steel, it is zinc coated which significantly prolongs the life of the play unit or duplex powder coated with coat curing according to RAL to prevent corrosion and it is fixed in a concrete bed. All other metal units are zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion. The climbing net is made using HERKULES material (16 mm thick ropes made from polypropylene with a steel internal core) and it is connected with plastic joints. The ball toss is made of high-quality HDPE (high-pressure, full-color polyethylene, which is characterized by high color stability, resistance to scratching, UV resistance and especially safety because it is brittle and there is no risk of injury to children by sharp debris). All fasteners are galvanized or stainless steel.

#### Equipment

Ball toss, Swedish ladder, Climbing net.
