# Playground » UNIVERSAL tower sets » Universal tower sets - Castle

## **UNIVERSAL 4U130KW - brown**

Product type 4U-130KW-10

## **Basic information**

Age category 2 - 15 years
Minimum area 8,5 m x 8,3 m

Equipment measurements 5,5 m x 3,82 m x 3,4 m Free fall height: 1.0 m

Free fall height:

Load capacity:

Max. number of users:

Fall zone: EN 1177

Designation:

Availability of spare parts:

Certificate of Compliance:

1.0 m

486 kg

9

null

exterior

supplied by the

ČSN EN 1176 - 1, 2, 3

#### Material

Metal units - structural steel Plastic units - HDPE, polyamide

Slide - fibreglass

Ropes and nets - polypropylene with a steel internal core

Platforms - HPL

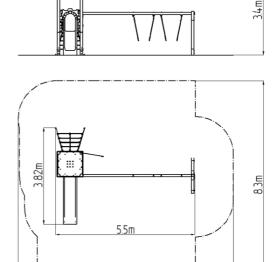

## **Finish**

Duplex powder coated with coat curing Hot-dip galvanizing

## **Description**

The support structure of the tower unit is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life or duplex powder coated with coat curing according to RAL to prevent corrosion. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The slide is made from fibreglass. The surfaces of the slide, barriers, flag, etc. are made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). The climbing net is made using HERKULES material (16 mm thick ropes made from polypropylene with a steel internal core) and are connected with plastic or aluminium joints. The platforms are made from HPL (High-pressure laminate, which is characterised by high colour stability, UV resistance and water resistance). All fastening material is galvanized or stainless steel.

8.5m

#### **Equipment**

Tower, slide, 2x barrier from HDPE, sloping net access, vertical climbing wall on the tower with steps, flag, battlements from HDPE, metal beam.
