A platform with a ramp for the cableway NP002K - metal

Product type NP-002KZn-10

Basic information

Age category 3 - 15 years Minimum area 5,85 m x 4 m

Equipment measurements 2,81 m x 1 m x 1,32 m

Free fall height: 1 m

Load capacity:

Max. number of users:

Fall zone: EN 1177

Designation:

Not specified

Not specified

null

exterior

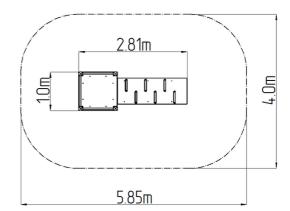

Availability of spare parts: supplied by the Certificate of Compliance: ČSN EN 1176 - 1

Material

Metal units - structural steel

Wooden units - water-proof plywood

Plastic units - HDPE

Finish

null

Description

The support structure of the platform to the cableway is made from structural steel and is protected from corrosion by hot-dip galvanizing, which significantly prolongs the life of the play unit. The structure is fixed in a concrete bed. All other metal units are zinc coated and KOMAXIT powder coated according to the RAL colour chart. The platform is made from water-proof plywood. Steps are made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). All fastening material is galvanized or stainless steel.
