# Skill trail AG-501K - metal

Product type AG-501K

### **Basic information**

Age category 0 - 0 years Minimum area m x m

Equipment measurements 4 m x 1,3 m x 0,8 m

Free fall height:

Load capacity:
Max. number of users:
Fall zone: EN 1177
Designation:
Availability of spare parts:
Not specified
Not specified
Not specified
supplied by the

Certificate of Compliance:

#### Material

Metal units - structural steel Plastic units - Foamlite

## Finish

Duplex powder coated with coat curing Hot-dip galvanizing

## **Description**

The support structure is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are embedded in a concrete base. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

All step boards are made of high quality Foamlite (high-pressure, which is characterised by high colour stability, UV resistance and mainly safety because it is rigid and there is no risk of injury caused by sharp broken fragments). All connecting material is zinc or stainless steel coated.
