Metal units - structural steel
Wooden units - spruce wood

Finish

Duplex powder coated with coat curing
null

Description

The waste bin for sorted waste is made from spruce wood. The wood is impregnated and coated with a layer of lacquer. The structure is fixed in a concrete bed. The trash can insert is made of galvanized steel. All other metallic elements are duplex powder coated with coat curing according to RAL to prevent corrosion. All fastening material is galvanized or stainless steel.
Cubic capacity: 3x60 l
