

Shade cover for sandpit 2x2 m (adjustable) ZP220

Product type ZP-220

Basic information

Age category	from 0 years
Minimum area	5 m x 5 m
Equipment measurements	3,02 m x 3,02 m x 2,4 m
Free fall height:	m
Load capacity:	Not specified
Max. number of users:	Not specified
Fall zone: EN 1177	null
Designation:	exterior
Availability of spare parts:	supplied by the
Certificate of Compliance:	ČSN EN 1176

Material

Metal parts - structural steel
Tarpaulin - rubber coated polyester mesh

Finish

Hot-dip galvanizing

Description

The supporting structure of the sandbox shading is made of structural steel, which is protected against corrosion by hot-dip galvanizing, which results in a very significant extension of the life of the gaming element. This construction is embedded in a concrete bed. The sandbox shade is made from rubber coated polyester mesh, which is UV resistant. The sandbox shading is water permeable. All fasteners are galvanized or stainless steel.
