

Shade cover for sandpit 3x3 m (adjustable) ZP330

Product type ZP-330

Basic information

| | |
|------------------------------|-------------------------|
| Age category | from 0 years |
| Minimum area | 6 m x 6 m |
| Equipment measurements | 4,01 m x 4,01 m x 2,4 m |
| Free fall height: | m |
| Load capacity: | Not specified |
| Max. number of users: | Not specified |
| Fall zone: EN 1177 | null |
| Designation: | exterior |
| Availability of spare parts: | supplied by the |
| Certificate of Compliance: | ČSN EN 1176 |

Material

Metal parts - structural steel
Tarpaulin - rubber coated polyester mesh

Finish

Hot-dip galvanizing

Description

The supporting structure of the sandbox shading is made of structural steel, which is protected against corrosion by hot-dip galvanizing, which results in a very significant extension of the life of the gaming element. This construction is embedded in a concrete bed. The sandbox shade is made from rubber coated polyester mesh, which is UV resistant. The sandbox shading is water permeable. All fasteners are galvanized or stainless steel.
