

## Double panel drawing board with an abacus KTP6301KW -

Product type                   KTP-6301KW-10

### Basic information

Age category	from 0 years
Minimum area	5,1 m x 3,1 m
Equipment measurements	2,1 m x 0,08 m x 1,41 m
Free fall height:	0 m
Max. number of users:	Not specified
Fall zone: EN 1177	null
Certificate of Compliance:	ČSN EN 1176-1 ed.2 +A1:2024

### Material

Metal parts - structural steel  
Blackboard - HPL

### Finish

Duplex powder coated with coat curing  
Hot-dip galvanizing

### Description

The support structure of the drawing board is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are anchored to concrete footings. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The drawing area is made of ecological HPL (high-pressure laminate, which is characterized by high color stability, scratch resistance, water resistance and UV resistance and especially safety, because it is unbreakable and there is no risk of children being injured by sharp fragments, and it is also non-toxic and recyclable). All fastening material is galvanized or stainless steel.
