

## Shade cover for hexagonal sandpit (adjustable) ZPI6000

Product type ZPI-6000

### Basic information

Age category	from 0 years
Minimum area	5,51 m x 5,88 m
Equipment measurements	3,51 m x 3,88 m x 2,4 m
Free fall height:	0 m
Max. number of users:	Not specified
Fall zone: EN 1177	null
Certificate of Compliance:	ČSN EN 1176-1 ed.2 +A1:2024

### Material

Metal parts - structural steel  
Tarpaulin - rubber coated polyester mesh

### Finish

Hot-dip galvanizing

### Description

The supporting structure of the sandbox shading is made of structural steel, which is protected against corrosion by hot-dip galvanizing, which results in a very significant extension of the life of the gaming element. This construction is embedded in a concrete bed. The sandbox shade is made from rubber coated polyester mesh, which is UV resistant. The sandbox shading is water permeable. All fasteners are galvanized or stainless steel.
