

## Crawler with a rope tube - Fire truck PP110K

Product type PP-110K-10

### Basic information

Age category	0 - 10 years
Minimum area	5,3 m x 4,1 m
Equipment measurements	2,29 m x 1,03 m x 1,19 m
Free fall height:	1 m
Max. number of users:	5
Fall zone: EN 1177	null
Certificate of Compliance:	ČSN EN 1176-1 ed.2 +A1:2024 ČSN EN 1176-11:2015

### Material

Plastic units - HDPE  
Ropes - polypropylene with a steel internal core  
Metal units - structural steel  
Platforms - Foamlite

### Finish

Duplex powder coated with coat curing  
Hot-dip galvanizing

### Description

The supporting structure of the fire truck is made of structural steel, which is protected against corrosion by the zinc coating, which provides a very significant prolongation of the life of the gaming elements or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are embedded in a concrete bed. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion. All other parts are made of high quality plastic HDPE (high-pressure, full-color polyethylene, which is characterized by high color fastness, UV resistance and mainly safety, because it is non-breakable and there is no risk of injury to children sharp fragments). Rope tunnel is made using HERKULES material (16 mm thick ropes made from polypropylene with a steel internal core) and are connected with plastic or aluminium joints. All fasteners are galvanized or stainless steel.

### Equipment

1x Rope tunnel, 1x steering wheel, 2x interactive sidewalls, 4x cushions
