

Educational panel EDP6303KW - brown

Product type EDP-6303KW-10

Basic information

Age category	from 0 years
Minimum area	5,68 m x 3,06 m
Equipment measurements	2,68 m x 0,06 m x 1,3 m
Free fall height:	0 m
Max. number of users:	Not specified
Fall zone: EN 1177	null
Certificate of Compliance:	ČSN EN 1176-1 ed.2 +A1:2024

Material

Metal parts - structural steel
 Plastic parts - HDPE
 Drawing board - HPL

Finish

Duplex powder coated with coat curing
 Hot-dip galvanizing

Description

The support structure of the panel is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are anchored to concrete footings. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The wall is made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). All fastening material is galvanized or stainless steel.
