

## Information board including rules of operation IT100K

Product type IT-100K-10

### Basic information

|                              |                         |
|------------------------------|-------------------------|
| Age category                 | from 0 years            |
| Minimum area                 | 1,1 m x 1,1 m           |
| Equipment measurements       | 0,3 m x 0,05 m x 1,51 m |
| Free fall height:            | 0 m                     |
| Load capacity:               | Not specified           |
| Max. number of users:        | Not specified           |
| Fall zone: EN 1177           | null                    |
| Designation:                 | exterior                |
| Availability of spare parts: | supplied by the         |
| Certificate of Compliance:   | ČSN EN 1176 - 1         |

### Material

Metal units - structural steel  
Board - aluminium

### Finish

Hot-dip galvanizing

### Description

The information board structure is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. This structure is embedded in a concrete base. The board is made of aluminium. All connecting material is zinc or stainless steel coated.
