Shade cover for sandpit 4x4 m (adjustable) ZP441

Product type ZP-441

Basic information

Age category from 0 years Minimum area 7 m x 7 m

Equipment measurements 4,2 m x 4,2 m x 2,3 m

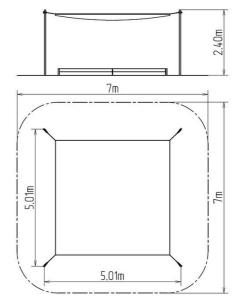

Free fall height:

Load capacity: Not specified Max. number of users: Not specified Fall zone: EN 1177 null

Designation: exterior
Availability of spare parts: supplied by the
Certificate of Compliance: ČSN EN 1176

Material

Metal parts - structural steel Tarpaulin - raschel

Finish

Hot-dip galvanizing

Description

The supporting structure of the sandbox shading is made of structural steel, which is protected against corrosion by hot-dip galvanizing, which results in a very significant extension of the life of the gaming element. This construction is embedded in a concrete bed. The sandbox shade is made of so-called raschel (high-quality, strong and durable shielding fabric). The sandbox shading is water permeable. All fasteners are galvanized or stainless steel.
