

Shade cover for hexagonal sandpit (adjustable) ZP601

Product type ZP-601

Basic information

| | |
|------------------------------|-----------------------|
| Age category | from 0 years |
| Minimum area | 6 m x 5,6 m |
| Equipment measurements | 3,8 m x 3,8 m x 2,4 m |
| Free fall height: | 0 m |
| Load capacity: | Not specified |
| Max. number of users: | Not specified |
| Fall zone: EN 1177 | null |
| Designation: | exterior |
| Availability of spare parts: | supplied by the |
| Certificate of Compliance: | ČSN EN 1176 |

Material

Metal parts - structural steel
Tarpaulin - raschel

Finish

Hot-dip galvanizing

Description

The supporting structure of the sandbox shading is made of structural steel, which is protected against corrosion by hot-dip galvanizing, which results in a very significant extension of the life of the gaming element. This construction is embedded in a concrete bed. The sandbox shade is made of so-called raschel (high-quality, strong and durable shielding fabric). The sandbox shading is water permeable. All fasteners are galvanized or stainless steel.
