# Parallel bars BR101D (f.h. 1 m)

ČSN EN 1176 - 1

Product type BR-101D-10

### **Basic information**

Certificate of Compliance:

 $\begin{array}{ll} \mbox{Age category} & \mbox{3 - 15 years} \\ \mbox{Minimum area} & \mbox{4,5 m x 3,7 m} \\ \mbox{Equipment measurements} & \mbox{1,5 m x 0,7 m x 1,11 m} \end{array}$ 

Free fall height: 1 m

Load capacity: 54 kg

Max. number of users: 1

Fall zone: EN 1177 null

Designation: exterior

Availability of spare parts: supplied by the

#### Material

Wooden units - thick glued wooden supports Metal units - structural steel

# 4.5m 4.5m

## Finish

null

Duplex powder coated with coat curing Hot-dip galvanizing

## **Description**

The parallel bars support structure is made from thick glued wooden supports. This solution ensures maximum protection against cracking, which is common for products made from solid wood. The wooden supports are impregnated and coated with a triple layer of lacquer, which meets the terms and conditions of the EN71/3 Standard (safe for children's toys). The structures are anchored into the ground in steel plates, which are protected against corrosion by hot-dip galvanizing and fixed in a concrete bed. The anchors are fastened to the play unit with bolts and their structure ensures that they are not in direct contact with the ground. All metal units are zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion. All fastening material is galvanized or stainless steel.
