# **UNIVERSAL 4U119KS - silver**

Product type 4U-119KS-15

#### **Basic information**

Age category 3 - 15 years Minimum area 7,3 m x 8,5 m

Equipment measurements 4,38 m x 3,58 m x 3,63 m

Free fall height:

Load capacity:

Max. number of users:

Fall zone: EN 1177

Designation:

1,5 m

324 kg

null, 45 m<sup>2</sup>

exterior

Designation: exterior
Availability of spare parts: supplied by the
Certificate of Compliance: ČSN EN 1176 - 1, 2, 3

#### Material

Platform - HPL Metal units - structural steel Plastic units - HDPE Slide - fibreglass Roof - HPL

# Finish

Duplex powder coated with coat curing Hot-dip galvanizing

# 7.3m 6m 4.38m

### Description

The support structure of the tower unit is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life or duplex powder coated with coat curing according to RAL to prevent corrosion. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The slide is made from fibreglass. The surfaces of the slides etc. are made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). The platform is made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance). The roof is made from HPL (High-pressure laminate, which is characterised by high colour stability, UV resistance and water resistance). All fastening material is galvanized or stainless steel.

## Equipment

Tower, slide, A-shaped roof, 2x barrier, ladder, metal beam.
