

Twin chain swing with a slide RH6251KW - Brown (f.h. 1 m)

Product type

RH-6251KW-10

Basic information	
Age category Minimum area Equipment measurements Free fall height: Load capacity: Max. number of users: Fall zone: EN 1177 Designation: Availability of spare parts: Certificate of Compliance:	2 - 15 years 8,32 m x 7,75 m 5,32 m x 2,96 m x 1,81 m 1 m 324 kg 6 null exterior supplied by the ČSN EN 1176 - 1, 2, 3
Material	
Metal units - structural steel Platform - HPL Plastic units - HDPE	

Finish

Duplex powder coated with coat curing Hot-dip galvanizing

Seat Normal - aluminum, covered with a rubber

Description

Slide - fibreglass

The support structure of the swing is made from structural steel, which is zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion and is fixed in a concrete bed.

The slide is made from fibreglass. The surface of the slide is made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). The swings are hung on a metal girder using galvanized chains. The platform is made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance). The Normal seat is made of aluminum, covered with a soft and comfortable rubber. All fastening material is galvanized or stainless steel.

Equipment

We offer three color variants of the support structure - red, blue and brown.
