Twin chain swing with a slide RH6251KB - Blue (f.h. 1 m)

Product type RH-6251KB-10

Basic information

Age category 2 - 15 years
Minimum area 8,32 m x 7,75 m

Equipment measurements $5,32 \text{ m} \times 2,96 \text{ m} \times 1,81 \text{ m}$ Free fall height: 1 m

Load capacity:

Max. number of users:

Fall zone: EN 1177

Designation:

Availability of spare parts:

Certificate of Compliance:

324 kg

null

exterior

supplied by the

ČSN EN 1176 - 1, 2, 3

Material

Metal units - structural steel

Platform - HPL Plastic units - HDPE Slide - fibreglass

Seat Normal - aluminum, covered with a rubber

Finish

Duplex powder coated with coat curing Hot-dip galvanizing

Description The support structure of the swing is made from structure.

5.32m

8.32m

The support structure of the swing is made from structural steel, which is zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion and is fixed in a concrete bed.

The slide is made from fibreglass. The surface of the slide is made from high quality HDPE plastic (high density coloured

96m

The slide is made from fibreglass. The surface of the slide is made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). The swings are hung on a metal girder using galvanized chains. The platform is made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance). The Normal seat is made of aluminum, covered with a soft and comfortable rubber. All fastening material is galvanized or stainless steel.

Equipment

We offer three color variants of the support structure - red, blue and brown.
