

## Waste bin for sorted waste OK310KP

Product type OK-310KP

### Basic information

|                              |                       |
|------------------------------|-----------------------|
| Age category                 | from 0 years          |
| Minimum area                 | 2 m x 1,4 m           |
| Equipment measurements       | 1 m x 0,39 m x 0,99 m |
| Free fall height:            | 0 m                   |
| Load capacity:               | Not specified         |
| Max. number of users:        | Not specified         |
| Fall zone: EN 1177           | null                  |
| Designation:                 | exterior              |
| Availability of spare parts: | supplied by the       |
| Certificate of Compliance:   | ČSN EN 1176 - 1       |

### Material

Metal units - structural steel  
Slats - recycled plastic

### Finish

Duplex powder coated with coat curing  
Hot-dip galvanizing

### Description

The waste bin for sorted waste is made from recycled plastic. The structure is fixed in a concrete bed. The trash can insert is made of galvanized steel. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion. All fastening material is galvanized or stainless steel.  
Cubic capacity: 3x60 l
