

Platform on springs HP110K

Product type HP-110K-10

Basic information

Age category	2 - 10 years
Minimum area	4 m x 4 m
Equipment measurements	1 m x 1 m x 1,68 m
Free fall height:	0,5 m
Load capacity:	162 kg
Max. number of users:	3
Fall zone: EN 1177	null
Designation:	exterior
Availability of spare parts:	supplied by the
Certificate of Compliance:	ČSN EN 1176 - 1, 6

Material

Plastic parts - HDPE
 Metal parts - stainless steel
 Swing springs - special spring steel

Finish

Duplex powder coated with coat curing
 Hot-dip galvanizing

Description

The structure of the platform is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements, and coating with baked paint KOMAXIT according to the RAL colour system. All other metallic elements are also zinc coated and treated with baked paint KOMAXIT according to the RAL colour system. The platform is made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). The swing springs are made from special spring steel and are KOMAXIT powder coated. All fastening material is galvanized or stainless steel.
