Description

The support structure of the skill path is made of structural steel with a diameter of 89 mm which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements, and coating with baked paint KOMAXIT according to the RAL colour system. These structures are embedded in a concrete base. All other metallic elements are also zinc coated and treated with baked paint KOMAXIT according to the RAL colour system.

All step boards are made of HPL (High-pressure laminate). All connecting material is zinc or stainless steel coated.

Equipment

We offer three color variants of the support structure - red, blue and brown.
