Interactive panel IP107KW - brown

Product type IP-107KW-10

Basic information

Age category from 0 years Minimum area $3.8 \text{ m} \times 3.1 \text{ m}$

Equipment measurements 0,8 m x 0,08 m x 1,41 m

Free fall height: 0 m

Load capacity:

Max. number of users:

Fall zone: EN 1177

Designation:

Availability of spare parts:

Certificate of Compliance:

Not specified

Not specified

Not specified

vull

exterior

supplied by the

ČSN EN 1176

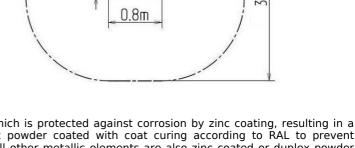

Material

Metal parts - structural steel Plastic parts - HDPE

Finish

Duplex powder coated with coat curing Hot-dip galvanizing

Description

3.8m

The support structure of the panel is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are anchored to concrete footings. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The wall is made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). All fastening material is galvanized or stainless steel.
