

Chain swing RH106KW-B - Brown

Product type RH-106KW-10-B

Basic information

Age category	2 - 10 years
Minimum area	7 m x 4,88 m
Equipment measurements	1,62 m x 1,92 m x 1,67 m
Free fall height:	1 m
Load capacity:	54 kg
Max. number of users:	1
Fall zone: EN 1177	null
Designation:	exterior
Availability of spare parts:	supplied by the
Certificate of Compliance:	ČSN EN 1176 - 1, 2

Material

Metal units - structural steel
 Seat - rubber with an aluminum insert
 Plastic units - HDPE

Finish

Duplex powder coated with coat curing
 Hot-dip galvanizing

Description

The support structure of the swing is made from structural steel, which is zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion and is fixed in a concrete bed.

Leaves of plastic are made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). The swing is hung on a metal girder using galvanized chains. The seat is made of rubber and is reinforced with an aluminum insert. The chains are stainless steel, resulting in a very prolonged service life of the product. All fastening material is stainless steel.

Equipment

1x BABY seat, 2x leaf of plastic
