## Chain swing nest with climbs RH190KB - Blue (f.h. 1,0 m)

Product type RH-190KB-10

#### **Basic information**

Age category 2 - 15 years Minimum area 8,4 m x 7 m

Equipment measurements 5,4 m x 1,46 m x 1,77 m

Free fall height:

Load capacity:

Max. number of users:

Fall zone: EN 1177

Designation:

Availability of spare parts:

Certificate of Compliance:

1,0 m

486 kg

9

null

exterior

supplied by the

ČSN EN 1176 - 1, 2

#### **Material**

Metal parts - structural steel Plastic parts - HDPE

Platform - HPL

Rope seat NEST - high-strength fiber polypropylene Ropes and nets - polypropylene with a steel internal

#### **Finish**

Duplex powder coated with coat curing Hot-dip galvanizing

# Description

# The load-bearing structure of the double-shaft is made of structural steel, which is protected against corrosion by zinc coating, which results in a very significant extension of the life of the play element or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are embedded in a concrete bed. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The barriers are made of high-quality HDPE (high-pressure, full-colored polyethylene, which is characterized by high color stability, UV resistance and especially safety because it is brittle and there is no risk of injury to children by sharp debris). The "Nest" seat is made of high-strength fiber polypropylene rope. The climbing net and the ropes are made using HERKULES material (16 mm thick ropes made from polypropylene with a steel internal core) and are connected with plastic or aluminium joints. The suspension ropes are made of HERKULES (16 mm polypropylene rope with internal steel core). The platform is made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance). All fasteners are galvanized or stainless steel.

#### **Equipment**

Chain swing nest with climbs RH190K - with a landing and a metal, galvanized boom, drop height 1,0 m.
