

Four seat seesaw VH401D

Product type VH-401D-10

Basic information

Age category	2 - 10 years
Minimum area	6,7 m x 2,3 m
Equipment measurements	3,68 m x 0,29 m x 0,91 m
Free fall height:	1 m
Max. number of users:	4
Fall zone: EN 1177	null
Certificate of Compliance:	ČSN EN 1176-1 ed.2 +A1:2024 ČSN EN 1176-6 ed. 2:2018

Material

Metal units - structural steel
Seats - HPL
Wooden units - thick glued wooden supports

Finish

null
Duplex powder coated with coat curing
Hot-dip galvanizing

Description

The seesaw beam is made from a glued wooden support and is secured to the steel structure with carriage bolts. The construction is protected against corrosion by hot-dip galvanizing and is fixed in a concrete bed. The wooden support is impregnated and coated with a triple layer of lacquer, which meets the terms and conditions of the EN71/3 Standard (safe for children's toys). The seats are made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance). The handles are zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion. All fastening material is galvanized or stainless steel. The swing is constructed with durability and long life in mind. Impacts are dampened by rubber bushings.
