

Shade cover for hexagonal sandpit ZP600

Product type ZP-6000

Basic information

Age category	from 0 years
Minimum area	6 m x 5,6 m
Equipment measurements	3,8 m x 3,8 m x 2,4 m
Free fall height:	0 m
Load capacity:	Not specified
Max. number of users:	Not specified
Fall zone: EN 1177	null
Designation:	exterior
Availability of spare parts:	supplied by the
Certificate of Compliance:	ČSN EN 1176

Material

Metal parts - structural steel
Tarpaulin - raschel

Finish

Hot-dip galvanizing

Description

The supporting structure of the sandbox shading is made of structural steel, which is protected against corrosion by hot-dip galvanizing, which results in a very significant extension of the life of the gaming element. This construction is embedded in a concrete bed. The sandbox shade is made of so-called raschel (high-quality, strong and durable shielding fabric). The sandbox shading is water permeable. All fasteners are galvanized or stainless steel.
